110062639 AS02 Report

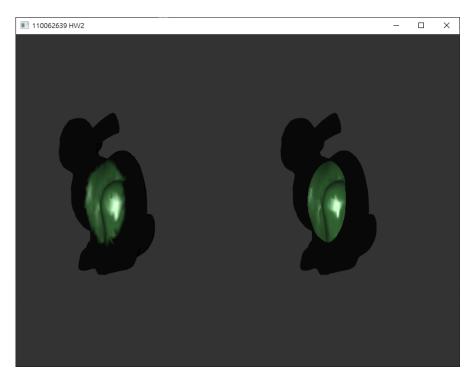

Some screen shot

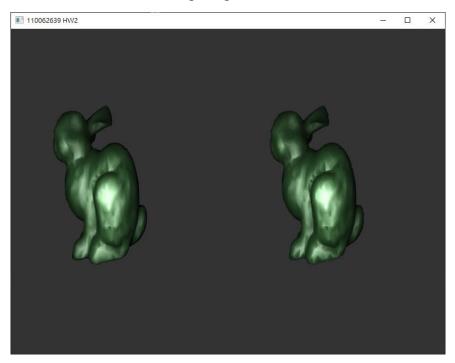

Direction light

Position light

Spot light

Change shininess

- Description of your program control instructions
 - (1) L: switch between directional/point/spot light 利用講義的公式將不同type的光源的顏色算出來,計算是在shader裡面計算,shader使用的語法還不太熟悉。
 - (2) K: switch to light editing mode 改變光源位置還有亮度。
 - (3) J: switch to shininess editing mode 改變shininess的值
 - (4) Y:auto rotate 每次將model的rotate.y+0.15
- Other special things you have done 按一下 y 或 Y 會自動對 y 軸旋轉,再按一次 y 或 Y 取消自動旋轉。
